

FOOD WASTE STRAINER

by MECHLINE

NISBETS

MECHLINE'S GREASE MANAGEMENT SOLUTIONS

NEW Food Waste Strainer for commercial sinks

A unique sink strainer system designed and manufactured by Mechline **to make it easier for kitchen staff** to prevent food waste particles from entering the drainage system via the sink drain boss.

THE EASY WAY TO PREVENT FOOD WASTE GOING DOWN THE DRAIN

SIMPLE TO USE...

RINSE the sink to wash all the food waste particles down into the basket

EMPTY out the food waste into the recycle bin using the removable basket

REPLACE the basket to keep the sink and waste pipes clean and clear

- Flexible design, meaning it can fit most standard sink bowls
- Easy for kitchen staff to use
- Can be fitted to bowls with the drain waste on the left or on the right using unique, adjustable cover plates
- Raised angle of front end aids the rinsing of food particles into the food waste basket ready for emptying

- Removable basket allows trapped food waste to be easily emptied into the bin for recycling – no mess left in the sink bowl to deal with
- Reduces the ingress of food waste to the waste system
- Made from durable 1mm 304 Stainless Steel
- Helps to prolong service intervals for Grease Traps

- The sink plug upstand can be supplied and is available in two sizes – 250mm or 300mm long
- Complete system is easy to remove and replace, to allow periodic cleaning through the dishwasher

WORKS IN CONJUNCTION WITH GREASEPAK & BIOCEPTOR for a full grease management solution

Codes:

FS049

FS048

PLUG UPSTAND IS REQUIRED BUT NOT SUPPLIED UNLESS REQUESTED

Food Waste Strainer for commercial kitchens.

Code: FS049 - to fit sink bowls 480–510 by 380–410

Code: FS048 - to fit sink bowls 580–610 by 430–460

Manufacturer: Mechline Developments Limited

PURPOSE

An important aid towards managing Fats, Oils, Grease and Starches (FOGS) with the kitchen. Designed to reduce food waste particles from entering the drainage system via the sink drain boss.

FEATURES & BENEFITS

- The unique, adjustable cover plates allow the system to be fitted to bowls with the drain waste on the left or on the right of the sink bowl
- Raised angle of front face designed to aid the rinsing of food particles into the food waste basket ready for emptying
- Removable basket allows trapped food waste to be easily emptied into the bin for recycling – leaving no mess left in the sink bowl to deal with
- Easy to remove and replace the whole system, to allow periodic cleaning through the dishwasher
- Reducing the amount of food waste entering the drain will help to prolong service intervals for Grease Traps

- **Sink plug upstand can be supplied** and is available in two sizes (250mm or 300mm long) which will fit a standard 1 1/2 inch (40mm) waste

IMPORTANT NOTES

⚠ The Mechline food waste strainer comes ready assembled for a right-hand side drain waste. If the system is to be fitted in a sink bowl with the drain waste located on the left-hand side, the cover plates are very easy to swap over.

⚠ For the food waste strainer system to work efficiently, a plug upstand strainer is required. The upstand must be lower than the sink's brim.

MATERIAL

Durable 1mm 304 Stainless Steel

WEIGHTS (unboxed and without plug upstand)

Code: FS049 - 3.25 kg

Code: FS048 - 2.2 kg

WARRANTY

One-year manufacturer's warranty.

OTHER RECOMMENDED GREASE MANAGEMENT SOLUTIONS

GreasePak™ a unique, safe, automatic drain dosing system specifically designed to prevent the recurrence of drain blockages from Fats, Oils, Grease and Starches (FOGS) in the drain, and in grease traps.

BioCeptor™ FOGS Intercept and Treatment (F.I.T) unit works in conjunction with the GreasePak bio-fluid dosing module. The combined technologies create a highly effective environment, perfect for permanent degradation of Fats, Oils, Grease and Starches (FOGS).
