

Vista Hot Food Display

Who says food displays need to be box-like and boring?

The latest in a long line of stylish yet highly functional food service products. The new Vista Hot Food Display is the perfect complement to the Vista 60 baking oven, and offers the same attractive profit making opportunities. With 360 degree visibility wherever the unit is sited, the Vista display will enhance any front of house foodservice operation.

Combining stainless steel, polished chrome and toughened glass to stunning effect, the unit can be used as a counter top unit with through loading and customer self-service if required. Like all King Edward products this unit is hand finished in the UK to ensure optimum operating efficiency and hard wearing good looks.

Use the Vista Hot Food Display to store and present all types of food – from croissants, pastries and bread products – to pies, pizza and even potatoes.
