Introducing... Maxiglass

Maxiglass bottle coolers with glass doors are specially designed to present bottled drinks in an aesthetically pleasing manner, reach the perfect temperature and maintain it.

Maximum presentation, **minimum** power consumption. Available in 3 heights, multiple widths and with hinged or sliding doors, meaning there's a Maxiglass to suit every need.

Superior storage capacity in its class. The Maxiglass range can store between 140 and 480 bottles!

Efficient LED lighting with even light distribution to show the drinks in a really appealing light, inspiring impulse purchases.

Easy to service design with pull out service tray at the back of the unit, meaning minimum downtime during routine service and maintenance.

Crafted in The Netherlands – designed and manufactured in Etten-Leur, guaranteed exceptional product quality.
