

Dishwasher Detergent - Hard Water

2x5ltr

GM981

KITCHEN &
FOOD PREP

CONCENTRATE

Advanced formula for
accelerated soil removal.

Use(s):

Advanced formulated machine dishwash detergent with a unique blend of detergents for accelerated soil removal in hard water areas. Active de-foamers work in the toughest of conditions whilst progressive corrosion inhibitors protect dishwasher parts.

Directions:

Remove food scraps from dishes before racking.

Normally a concentration of 0.14% - 0.33% (1400ppm - 3300ppm) is used, dependant on level of soiling and water hardness.

The temperature of the final wash cycle should be at least 60°C.

Results are enhanced by use of Rinse Aid in the final rinse.

NB DO NOT USE on Aluminium, Lead crystal or hand painted china.

PROTECT FROM FROST.

Technical:

Physical state:	Liquid
Colour:	Light yellow
Odour:	Odourless
pH:	> 11.5
Density:	1.17 – 1.2
