

Durability of Santos products reinforced by the Longtime® label

Year after year, we focus more and more on developing eco-friendly products, integrating green technologies, to meet the needs of our customers.

Today, we are proud to announce that we have achieved the **Longtime® certification** for our products. LONGTIME® is the label for products designed to last. It provides assurance that **products are reliable, repairable and against planned obsolescence.**

This certification fits perfectly into our company's philosophy, regarding our aim to fight **against planned obsolescence.** This label is thus a real reward for the robustness and durability of our appliances.

Indeed, our appliances are built to last thanks to their design and the quality of their materials. We guarantee **the availability of all spare parts for more than 10 years** after the production of our appliances, so that they are **durable and endlessly repairable.** A Santos appliance, whatever it is, can always be reconditioned.

This certification concerns our juice extractors, citrus juicers and blenders.
