

# E697 RUBBER DART MAT

This dart mat has been marked with three oche lines; 7' 6" (2.29 metres), 7' 9¼' (2.37 metres) and 8' (2.44 metres).

The mat has been manufactured to a length longer than the indicated distance so that it can be trimmed to allow for the following factors:

- The face of the dartboard protruding from the wall.  
*Measure the distance from wall to dartboard face and allow for the difference in the length of the mat.*
- Skirting board protruding from the wall.  
*Measure the distance from the wall to the face of the skirting board and allow for the difference in the length of the mat.*

**i Note: When measuring, work from the 7'6" (2.29m) oche line.**

**i Note: We recommend chalk is used to mark the mat before trimming, and a sharp blade and spirit level is used to achieve a clean, straight edge.**
